**Subject:** WATER MONITORING

Hi Cheryl,

I'm doing a story on the water monitoring program being carried out by members of the group Kewaunee Cares in Kewaunee County. One of their members, Lynn Utesch, mentioned that they have been providing the EPA with their results and he mentioned and mentioned you as their contact. So I have a couple of questions:

Is a citizen-driven monitoring effort such as this unusual?

What does the EPA do with the monitoring results?
